RAJAJI ROAD, CHENNAI -  
600009

## SUMMARY

Frontend React developer with internship experience in HTML, CSS, JavaScript, and React.js. Proficient in crafting engaging user interfaces and implementing responsive designs for optimal user experiences. Skilled in breaking down complex problems and finding innovative solutions. Known for adaptability and utilizing various frameworks and libraries to deliver high-quality solutions.

## EXPERIENCE

### FITA Academy - Institute

Internship and Learning - 10/2023 - 04-2024

Full Stack training at FITA Academy - Institute

Skilled in React for building dynamic user interfaces. Gaining valuable industry experience through diverse project involvement. Focused on enhancing skills in frontend development technologies. Passionate about creating intuitive and engaging web experiences. Eager to contribute to innovative projects in the ever-evolving field of web development.

## PROJECTS

### Personal Portfolio Development

I built my portfolio with React.js and React Motion for smoother performance. Added eye-catching animations for better user interaction. Explored animation tools like anime.js, Swiper.js, and GSAP, making the user experience more enjoyable.

Deployed at: [Frontend Developer](#)

### Walk International - React js

Developed 'Walk International' website from scratch using React.js, ensuring pixel-perfect replication. Enhanced skills in data passing between components. Employed GSAP for animations, Material-UI and PrimeReact for component styling. Leveraged JSON format for resource retrieval, optimizing website performance.

Deployed at: [Walk International Clone](#)

### Amazon E-commerce Grocery Shop - React js

The Amazon E-commerce Grocery Shop project provided valuable insights into the workings of e-commerce websites. I gained hands-on experience in implementing product increment and decrement functionalities, as well as understanding of the add-to-cart feature.

Deployed at: [Amazon E-Commerce](#)

### Form Validation - Javascript

Constructed a Registration Form using JavaScript and Tailwind CSS, gaining insights into signup, sign in, and authentication processes.

Deployed at: [Form Validation](#)

### Chennai Digital Prints - Freelancing Website for Printing Shop

In progress: Chennai Digital Prints, a dynamic freelancing website for a printing shop, employs React.js, Tailwind CSS, and GSAP for animations. Designed for optimal user experience, it integrates external APIs for seamless operations and showcases a range of printing services.
